

**LOUIS CHEVROLET**  
**SWISS WATCHES**

INSTRUCTION MANUAL FRONTENAC LC9

Version 1  
January 2020

**Congratulations and thank you for your purchase.**

**By choosing this watch you have entered the  
Louis Chevrolet universe!**

Being of Swiss origin and born just a few kilometers from our factory, we had to honor Louis Chevrolet, the illustrious man who made history.

From car mechanics to watchmaking precision, there was only one step to take. The latter was all the easier because his father was himself a talented watchmaker.

You are now one of the thousands of ambassadors of our brand!  
Welcome to the Louis Chevrolet family

André SAUNIER  
CEO

## Watch presentation

- 1 - Minutes hand
- 2 - Seconds hand
- 3 - Hours hand
- 4 - Flying date
- 5 - Crown

A : Normal position (winding position)

B : Date correction position

C : Setting time position (stopping second)

## Winding

- Self-winding

The automatic movement will rewind your Frontenac once you have it on your wrist.

- Winding while stopped

The maximum power reserve can be restored by turning the crown clockwise around 30 times.

## Date correction

- Pull the crown out to position B.  
(watch still running)
- Turn the crown clockwise until the required date appears.
- Push the crown back into position A.

## Setting the time

- Pull the crown out to position C.  
(watch stopped)
- Turn the crown, until the current time is displayed.  
(remember the 24-hour cycle)
- Push the crown back into position A.

"NEVER  
GIVE UP"
